MEMORANDUM FOR: Director of Central Intelligence

SUBJECT : Response of Policy Consumers to Our Analysis
on Global Issues

1. Action Suggested: Pass the attached publication to Dr. Brzezinski.
2. Background: The attached packet of favorable consumer responses represents the broad array of praise garnered by the International Issues Division (IID) of the Office of Regional and Political Analysis (ORPA). IID is led by [] who was awarded a Certificate of Distinction last week for his leadership. IID was organized about three and a half years ago as a conscious investment in developing capabilities for incisive and timely intelligence support to the policy community on global problems - North-South Relations, Energy Dependence, Human Rights, Terrorism, Food and Population, Nuclear Proliferation, etc. - and was ready to serve the Carter Administration's priority interest in these problems.

You have heard directly the President's praise of our work on Human Rights. This packet of favorable consumer responses to our analysis of global issues underscores the identifiable strong support for this work in the policy community.

In addition to IDD individual studies, it publishes briefer analytic items in its monthly International Issues series. The latest issue is attached. I suggest you may wish to pass it to Dr. Brzezinski on an early occasion to alert him to the kind of work we are doing on these problems.
